Turn conference rooms into collaboration rooms

This is BIG! The InFocus Mondopad™ transforms conference rooms designed for one-way presentations into dynamic visual collaboration workspaces.

Break down visual communication barriers with this giant full-HD wall tablet, its intuitive touch applications and video conferencing connectivity.

You and your colleagues can securely connect, share and collaborate with anyone, anywhere – making your meetings more collaborative, productive and sustainable than ever before.
Why your conference room needs a mondopad?

- Giant 55-in tablet with a beautiful full high definition 1080p (1920x1080) LCD display
- Multi-touch collaboration and presentation applications at your fingertips
- Collaborate using leading cloud, client and SIP video conferencing solutions
- Easily share, view and control content remotely from notebooks, tablets and smartphones

The InFocus Mondopad is a great big, sexy specimen of cutting edge visual collaboration technology. With 55 inches of gorgeous full high definition (1920x1080) multi-touch display at your fingertips, the era of brain numbing one-way presentations is finally coming to an end.

Designed for multi-touch, a Mondopad collaboration tablet changes the way people interact with information, collaborate and connect. Meetings are more engaging, content is more immersive, and audiences are more engaged.

**Bigger is Better**

**Whiteboard Wizard**

The Mondopad's whiteboard and collaboration apps make it easy to brainstorm and capture and share the ideas.

- A complete set of writing and drawing tools, pens, highlighters, shapes and lines are at your command
- Whiteboard drawings and notes on your meeting visuals can be collected, saved and emailed to meeting participants right from the Mondopad

**Never Lose an Idea**

Use the whiteboard's writing and drawing tools to take notes on whatever is being presented on screen. This highly-visual medium allows your teams to communicate more effectively, collaborate in real time, and never lose an idea.

- Circle or highlight key information on PPT slides, spreadsheets, design comps, and more
- Identify information on-screen to help remote participants follow along
- Capture and share the notes with everyone in the meeting right from the Mondopad
“The Mondopad's aim is to drain the boring out of business meetings.”

It’s Fun to Share

Sharing documents and visuals during a meeting from any device is amazingly easy with the Mondopad’s simple and familiar folder structure.

- Add, remove and launch documents from the Mondopad’s View/Share folder
- Open the View & Share folder with a tap. Another tap opens your file. Move through your document with a flick of a finger
- You can even email files directly to the Mondopad
- Use all of the office documents (PowerPoint, Word, Excel, PDF, JPGs and more) that you use every day — all optimized for touch

Not in the Room? Not a Problem.

Connecting the Mondopad to your secure network via its built-in WiFi allows any authorized user to connect to the network through the display and share, view and control their visuals from their PC, tablet or smartphone — no matter where they are.

- Mondopad’s WiFi also creates a wireless access point so guests in the room can easily deliver documents to the display
- Collaborate using leading cloud, client and SIP video conferencing solutions

Authorized users can use their smartphone or tablet to connect to their internal network through the Mondopad.

- Launch and control your presentation from your phone’s touchscreen
- Remote participants on their laptop, tablet or smartphone see what’s on the Mondopad via a web page served by the Mondopad
